

Encoder Placement on the Inspira™ Quilting Frame

The photograph shows the overall placement of the optical encoders on the quilting frame carriages. Please follow the detailed installation instructions in the user manual to complete the installation.

Also, please note that you can wrap the remote hand switch cord around the handle support to keep everything tidy.

Please check our website: www.quilterscruisecontrol.com for a short video clip that shows the encoder installation. Just click on the "Video Clips" menu on the website
